

Opaque Shapes

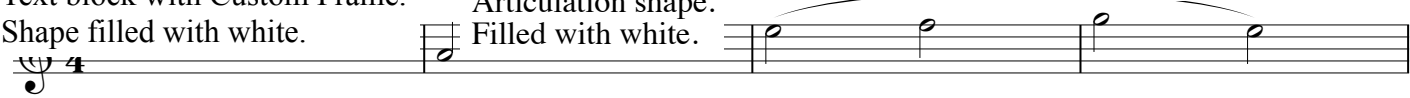

In the Shape Designer you can fill a rectangle with white, making it opaque.
This feature gives some options for opaque items:

Peter Thomsen

Text block with Custom Frame.
Shape filled with white.

Articulation shape.
Filled with white.

A page assigned text block covers anything.

A musical staff with a treble clef and a 4/4 time signature. It contains four quarter notes. Above the first note is a small square shape. Above the second note is a small circle shape. Above the third and fourth notes is a larger, rounded rectangular shape.A musical staff with a treble clef. It contains a whole note. Above the note is a rectangular box containing the text "Expression with opaque enclosure".
